

Mosquito bite prevention starts with you.

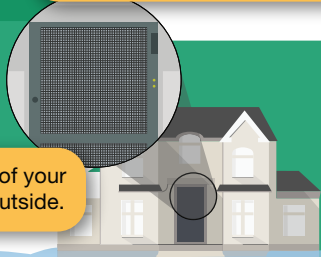

Mosquitoes can spread diseases such as West Nile virus and Zika virus.
Take these steps to fight the bite!

Eliminate standing water inside and outside your home.

Use an EPA-registered insect repellent.
www.epa.gov/insect-repellents

Use screens on the exterior of your home to keep mosquitoes outside.

Repair and seal your septic system.

Wear protective clothing.

Work together to eliminate standing water and reduce mosquito populations.
