

NKYHEALTH
NORTHERN KENTUCKY HEALTH DEPARTMENT

**Reminder to Homeowners Associations During COVID-19
4-9-2020**

Dear Association Officials,

NKY Health would like to take this opportunity to thank the community for its continued support of efforts to reduce the spread of COVID-19. These have been challenging times for everyone, and it is important to remain vigilant on social distancing and other protective measures to get us through this critical period.

The Health Department asks for your assistance in these efforts by doing the following:

- Remind residents and staff to continue practicing measures to prevent the spread of COVID-19.
- Take steps to discourage gatherings within your common areas. This includes basketball courts, playgrounds (especially playground equipment), clubhouses and other similar areas. Messaging about this can be through neighborhood newsletters and websites, social media, signage in common areas and intersections, etc.
- Remind residents that spending time outdoors as individual households is encouraged, but that people from different households should maintain social distancing of at least six (6) feet apart. This applies to anywhere they spend time, whether on their streets, in common areas, or while doing other essential activities during this pandemic.
- Remind residents to wash their hands or use hand sanitizer after contact with public common-touch surfaces such as community mail boxes, door handles, railings, dumpster handles, etc.
- Encourage residents to stay up-to-date on COVID-19 information and guidance by visiting websites such as those listed below:

If you have any questions, please contact the Health Department at 859-341-4264.

Thank you for being an integral partner in the fight against COVID-19.
